CLAIMS 1-12 AND 39-53 ARE PRESENTED FOR EXAMINATION

Applicants' reply filed December 11, 2006 has been received and entered into the application. Applicants' remarks have overcome the rejection not reiterated herein from the previous Office action the rejection not reiterated from the previous office action are hereby withdrawn. The following Office action constitute the totality of issues remaining in the present application.

Election/Restriction

As per the Office action dated July 8, 2003, claims 2, 5, 6, 12 and 39-53 remain withdrawn from consideration as being directed to non-elected subject matter, such election having been made with traverse in Applicants' communication filed August 8, 2003. The remaining claims, i.e., claims 1, 3, 4 and 7-11 are herein acted on the merits.

The Examiner anticipates that is application will be in condition for allowance except for the presence of the subject matter non-elected with traverse. Applicants should either cancel/amend the claims commensurate with the elected subject matter or else take other appropriate action (37 CFR 1.144).

Double Patenting

Provisional

Claims 1, 3, 4 and 7-11 remain provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over the pending claims of U.S. Application Serial Nos. 09/889,227, 10/071,248, 09/948,915, 10/361,858, 09/993,647, 10/042,203, 10/361,859, 10/308,187 or 10/895,985. Although the conflicting claims are not

Art Unit: 1614

identical, they are not patentably distinct from each other because the present claims have not been limited to a particular species or group of species and thus, the generic form of the present claims renders the presently claimed subject matter not patentably distinct over the claims of the above referenced U.S. Applications.

Applicants should either clearly demarcate the claims of these several applications or file an appropriate terminal disclaimer.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

None of the claims are currently in condition for allowance.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
